

Greetings from SANAE IV Base, and the 62nd Over-Wintering team.

An hour ago we took a team photo in the Library, with a backdrop of team photos from previous years. On this day we celebrate not only the turning-point of Winter, but also a tradition stretching back over a century. We are proud to be part of a continuity of SANAE teams. We wish to extend a warm invitation to all past team members to join us for this celebration – in spirit, at least!
